SUMMARY OF FIRST QUARTER OF 2021

Improved market conditions resulting from the ongoing vaccination programs are expected to result in increased demand for several of Essity's product categories. One example of this is the increase in demand in Professional Hygiene in North America in the first two weeks of April 2021. Another example is the recovery in China, where sales were significantly higher during the first quarter of 2021 compared with the first quarter of 2019.

During the first quarter, Essity has continued to position the company for future profitable growth, for example, by:

- Entered into an agreement with the Australian hygiene company Asaleo Care to acquire the remaining 63.8% of the shares in the company. Essity is the largest shareholder with a holding of 36.2% of the shares. The acquisition of Asaleo Care will enable profitable growth in Australia, New Zealand and the Pacific region.
- Expanded the offering of reusable products through the launch of TENA Silhouette washable absorbent underwear within Incontinence Products, the Libresse® V-Cup menstrual cup within Feminine Care and the Tork microfiber cleaning cloth within Professional Hygiene.
- Increased market shares in many markets over the most recent 12-month period.
- E-commerce sales increased organically by 14% and accounted for about 13% of net sales.

After the end of the first quarter:

- Entered into an agreement to acquire approximately 44% of the Colombian hygiene company Productos Familia S.A. After closing of the transaction Essity's ownership in Familia will amount to at least 94%. Essity has been an owner in Familia since 1985, and currently owns 50% of the company. The purchase price amounts to USD 1,540m (approximately SEK 13bn) for 100% of the company on a debt free basis. With the acquisition Essity is building a stronger platform in Latin America.
- Essity has also acquired the distribution rights to the wound care technology Sorbact® in Australia and New Zealand.
- The Manufacturing Roadmap program extends until 2025 and is expected to contribute to Essity's total annual cost savings of SEK 500-1,000m through the optimization of the production structure, productivity improvements and raw material and energy savings. These measures facilitate growth without investments increasing at the same pace. Working capital is expected to decrease by more than SEK 1,000m. The objective is to also utilize new production methods to reduce exposure to wood-based fresh-fiber pulp by approximately 10%, which will result in reduced volatility for the company's profitability. The program will also lead to that the company's sustainability targets within the Science Based Targets will be achieved faster.
- Announcement of price increases within Consumer Tissue due to higher raw material costs. These were announced in Essity's key markets and the percentage increases are on average in the mid to high single digits. Some effect from the price increases is expected already at the end of the second quarter of 2021 but with the main impact in the second half of 2021. Essity is preparing price increases in other product categories impacted by higher raw material costs.

The Group's organic net sales in the first quarter of 2021 declined by 9.9% compared with the corresponding period a year ago, of which volume accounted for -8.9% and price mix for -1.0%. The COVID-19 pandemic with the extensive restrictions and lockdowns had a negative impact on sales, primarily within Professional Hygiene and Medical Solutions. Furthermore, the comparative figures were affected by the strong sales growth that resulted from stockpiling in the first quarter of the preceding year by consumers and distributors. Stockpiling in the first quarter of the preceding year explains approximately half of the reduction in organic net sales. Organic net sales in mature markets declined 18.3%. In emerging markets, which accounted for 39% of net sales, organic net sales increased 4.2%.

The Group's adjusted gross margin for the first quarter of 2021 decreased by 0.6 of a percentage point year on year to 32.2%. The gross margin was positively impacted by lower raw material costs and an improved mix. Lower prices, lower volumes and higher distribution costs had a negative impact on the gross margin.

The Group's adjusted EBITA margin decreased 2.7 percentage points to 13.1%. The margin was negatively impacted by lower absorption of fixed costs as a result of lower sales. Sales costs decreased in absolute terms but increased as a share of net sales. Investments in growth increased marketing costs in absolute terms and as a percentage of net sales. Adjusted EBITA, excluding exchange rate effects, decreased 24%. Adjusted return on capital employed decreased 4.9 percentage points to 13.5%. Earnings per share amounted to SEK 3.04.

January–March 2021 compared with the corresponding period a year ago

Net sales declined 15.1% to SEK 10,759m (12,669). Organic net sales declined 5.9%, of which volume accounted for -7.0% and price/mix for 1.1%. Sales were negatively impacted by the COVID-19 pandemic as demand was temporarily negatively impacted by restrictions and lockdowns as consumption decreased slightly when consumers spent more time in the home. Furthermore, the comparative figures were affected by the strong sales growth in the first quarter of the preceding year that resulted from stockpiling by consumers. Organic net sales in mature markets declined 9.1%. In emerging markets, which accounted for 35% of net sales, organic net sales declined 1.1%. Exchange rate effects reduced net sales by 8.7%. Acquisitions and divestments reduced net sales by 0.5%.

For Incontinence Products, with Essity's globally leading TENA brand, organic net sales decreased 6.1%. In Medical Solutions, organic net sales decreased 3.3%. Sales in orthopedics and compression therapy were negatively impacted by COVID-19-related lockdowns and restrictions, while organic net sales increased 2.1% in wound care. For Baby Care, organic net sales declined 12.2%. For Feminine Care, organic net sales decreased 0.1%.

The adjusted gross margin increased 1.7 percentage points to 42.6% (40.9). The margin was positively impacted by a better mix, lower raw material costs and cost savings. Lower volumes and higher distribution costs had a negative impact on the margin. The adjusted EBITA margin decreased 0.2 of a percentage point to 15.9% (16.1). Sales costs decreased in absolute terms but increased as a share of net sales. Investments in growth increased marketing costs in absolute terms and as a percentage of net sales.

Adjusted EBITA decreased 16% (6% excluding currency translation effects, acquisitions and divestments) to SEK 1,708m (2,039).

The operating cash surplus amounted to SEK 2,160m (2,522).

Essity is preparing price increases as a result of higher raw material costs.

Net sales decreased 11.7% to SEK 11,554m (13,080). Organic net sales decreased 3.1%. Volumes accounted for an increase of 0.1% and the price/mix a decrease of -3.2%. Organic net sales decreased 16.6% in mature markets and were negatively affected by the strong sales growth in the first quarter of the preceding year that resulted from stockpiling by consumers. In emerging markets, which accounted for 49% of net sales, organic net sales increased by 11.9%. Exchange rate effects decreased net sales by 7.5%. Divestments and deconsolidation decreased net sales by 1.1%.

The adjusted gross margin was level with the preceding year and amounted to 26.4% (26.4). The gross margin was positively impacted by higher volumes and lower raw material costs, mainly related to Asia. Higher distribution costs and lower prices had a negative impact on the margin. The lower prices were primarily the result of an increase in promotional activities compared with a low level in the preceding year. The adjusted EBITA margin decreased 1.4 percentage points to 14.6% (16.0). Sales and marketing costs increased in absolute terms and as a share of net sales.

Adjusted EBITA decreased 19% (12% excluding currency translation effects, acquisitions and divestments) to SEK 1,685m (2,092).

January–March 2021 compared with the corresponding period a year ago

Net sales declined 34.4% to SEK 5,216m (7,957). Organic net sales declined 27.5%, of which volume accounted for -26.9% and price/mix for -0.6%. Sales were negatively impacted by the COVID-19 pandemic and related lockdowns and restrictions. This has mainly had a negative impact on demand in the customer segments of hotel, restaurant, catering, commercial buildings as well as schools and universities. It is positive that many customers have replaced air dryers with Essity's tissue dispensers as a result of a greater focus on hygiene. Organic net sales declined 31.5% in mature markets. In emerging markets, which accounted for 22% of net sales, organic net sales declined by 9.3%. Exchange rate effects reduced net sales by 6.8%. Divestments decreased net sales by 0.1%.

The adjusted gross margin decreased 6.7 percentage points to 23.7% (30.4). The gross margin was positively impacted by higher prices and cost savings. Lower volumes, higher raw materials and energy costs and higher distribution costs had a negative impact on the margin. The adjusted EBITA margin decreased 9.5 percentage points to 8.0% (17.5). Sales and marketing costs decreased in absolute terms but increased as a share of net sales.

Adjusted EBITA decreased 70% (66% excluding currency translation effects, acquisitions and divestments) to SEK 419m (1,393).

The operating cash surplus was SEK 923m (1,946).

Improved market conditions resulting from the ongoing vaccination programs is expected to result in increased demand in Professional Hygiene. One example is the increase in demand in North America in the first two weeks of April 2021.

Essity is preparing price increases as a result of higher raw material costs.

NOTES

1 ACCOUNTING PRINCIPLES

This interim report has been prepared in accordance with IAS 34 and recommendation RFR 1 of the Swedish Financial Reporting Board (RFR), and with regards to the Parent Company, RFR 2.

Effective January 1, 2021, Essity applies the following new and amended IFRS:

Amendments to IFRS 9, IAS 39, IFRS 7, IFRS 4 and IFRS 16

All other applied accounting principles and calculation methods correspond to those presented in Essity Aktiebolag's (publ) Annual and Sustainability Report for 2020.

Amendments to IFRS 9, IAS 39, IFRS 7, IFRS 4 and IFRS 16

Amendments were introduced due to the transition from Interbank Offered Rates (IBORs) to alternative benchmark interest rates. The amendments address issues that may arise when an existing interest rate benchmark is replaced with an alternative benchmark interest rate and describe how any effects resulting from the change of interest rate benchmark is to be recognized. The amendments also include disclosures related to the transition. Essity is monitoring all changes concerning the development of alternative interest rate benchmarks and is continuously evaluating the effects on the financial statements. The EU endorsed the amendments on January 13, 2021 and they came into effect on January 1, 2021.

The assessment is that the above amendments will not have any material effect on the Group's or the Parent Company's earnings or financial position.

Amendment to the consolidation principle for ProNARO

Essity has previously recognized ProNARO as a joint operation according to the proportional method. ProNARO's principal task is negotiate better prices and optimize inventory levels by pooling timber purchases. ProNARO has expanded its operations and now also sells to external customers other than Essity and Sappi (the other owner). This change of focus means that the company is more independent and Essity has thus made the assessment that the company is to be recognized according to the equity method as of January 1, 2021. This change means that Essity's participation in ProNARO's assets and liabilities is deconsolidated from the accounts. ProNARO's reported net sales amounted to SEK 435m and EBITA to SEK 0m in Essity's accounts for 2020.

2 RISKS AND UNCERTAINTIES

Processes for risk management

Essity's Board of Directors determines the Group's strategic direction based on recommendations from the Executive Management Team. Responsibility for the long-term, overall management of strategic risks corresponds to the company's delegation structure, from the Board of Directors to the CEO and from the CEO to the business unit presidents. This means that most operational risks are managed by Essity's business units at the local level, but that they are coordinated when considered necessary. The tools used in this coordination consist primarily of the business units' regular reporting and the annual strategy process, where risks and risk management are a part of the process.

Essity's financial risk management is centralized, as is the Group's internal bank for the Group companies' financial transactions and management of the Group's energy risks. Financial risks are managed in accordance with the Group's finance policy, which is adopted by Essity's Board of Directors and which – together with Essity's energy risk policy – makes up a framework for risk management. Risks are aggregated and monitored on a regular basis to ensure compliance with these guidelines. Essity has also centralized other risk management.

Essity has a staff function for internal audit, which monitors compliance in the organization with the Group's policies.

Essity's risk exposure and risk management are described on pages 36–41 of Essity's Annual and Sustainability Report 2020. No significant changes have taken place that have affected the reported risks. This also relates to the uncertainty and risks that have arisen on account of the COVID-19 pandemic that may affect Essity's sales, earnings and financial position.

Risks in conjunction with company acquisitions are analyzed in the due diligence processes that Essity carries out prior to all acquisitions. In cases where acquisitions have been carried out that may affect the assessment of Essity's risk exposure, these are described under the heading "Events during the quarter" in the interim and year-end reports.

4 Acquisitions and divestments

Following the press release on December 10, 2020, Essity has now entered into an agreement to acquire the remaining 63.8% of the shares in Asaleo Care for AUD 1.40 cash per share. Asaleo Care is listed on the Australian Securities Exchange and Essity is the largest shareholder, holding 36.2% of the shares. The consideration implies an equity value on a 100% basis of approximately AUD 760m (approximately SEK 4.9bn) and an enterprise value of AUD 855m (approximately SEK 5.5bn). Subject to approval of the transaction by shareholders and the Court and at the absolute discretion of the Asaleo Board it is intended that a further special dividend of AUD 0.02 is paid prior to completion of the transaction. The agreement is supported by the Independent Directors of Asaleo Care and is expected to be voted on at a meeting of the independent shareholders in Asaleo Care in the second quarter of 2021.

Subject to the approval of the agreement at that meeting, subsequent Court and regulatory approvals, the completion of the transaction is expected to be finalized in the second quarter of 2021. The timing is indicative and subject to change.

5 Use of non-IFRS performance measures

Guidelines for Alternative Performance Measures (APMs) for companies with securities listed on a regulated market in the EU have been issued by the European Securities and Markets Authority (ESMA). These guidelines are to be applied for APMs not supported under IFRS.

This interim report refers to a number of performance measures not defined in IFRS. These performance measures are used to help investors, management and other stakeholders analyze the company's operations. These non-IFRS measures may differ

from similarly titled measures among other companies. Essity's 2020 Annual Report (pages 71–76) describes the various non-IFRS performance measures that are used as a complement to the financial information presented in accordance with IFRS. Tables are presented below that show how the performance measures have been calculated.
